PHILIPS

Steam iron
2400 W power 40g/min continuous steam, 180 g steam boost, Ceramic

DST3031/29

Highlights

Steam boost up to 180 gram
The strong steam boost gives you that extra power to penetrate deeper into the fabric and cut through the tough creases easily.

Continuous steam up to 40g/min

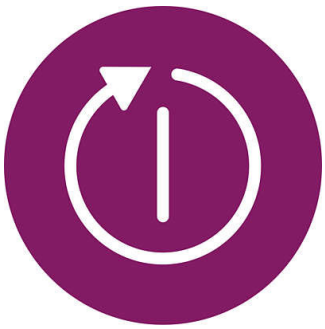

Strong and consistent steam output to remove creases faster.

2400 watt for fast heat-up

Delivers fast warm-up and powerful performance.

Ceramic soleplate

Our durable ceramic soleplate glides well on any ironable garment. It does not stick to your garment, is scratch resistant and easy to keep clean.

Auto shut-off

The iron shuts itself off if you leave it standing still. On its heel rest, it will automatically switch off in 8 minutes. Lying flat, it shuts down after 30 seconds motionless.

Drip stop

Our drip-stop system prevents leakage to avoid stains from water droplets, so you can iron with confidence at any temperature.

Vertical steam

With the vertical steam function you can refresh garments right on the hanger and remove creases from hanging fabrics such as curtains. No ironing board required.

Triple precision tip

The tip is precise in 3 ways: it has a pointed tip, button groove and sleek nose design. Our triple precision tip helps you handle even the hardest-to-iron spots, like buttons and pleats.

Built-in calc-clean slider

This iron operates with ordinary tap water. Calc-clean is a built-in cleaning function to remove calcium buildup, or limescale, and maintain peak performance.

300ml water tank

Fewer refills are required thanks to a large 300ml water tank. So you can iron more clothes in one go.
